

SR311 SP311 Master

cylinder, seal kit, release cylinder, suspension

Brake master cylinder

This is a faithful reproduction of the original product. Because it is an assembly product, the pedal touch and braking force are stable, improving safety and security.

Fits: SR311 SP311 (1967.5 - 1970) Size: 3/4

price: ¥59,000

*For left-hand drive vehicles, it is bolt-on. For right-hand drive vehicles, replace the push rod with the current product.

SR311 Hydraulic meter hose

This is a bypass hose that runs from the cylinder block to the hydraulic gauge steel pipe. Unlike the genuine rubber hose, this is a reinforced type assembled with a stainless steel mesh hose covered with a black cover.

Price: ¥10,000

* Hose fixing parts are not included.

Clutch master cylinder

A convenient rod adjustment type that allows you to change the clevis position to match the pedal height.

Fits: SR311 SP311 Size: 5/8

Price: ¥23,000
