

# ARP main stud bolt kit

Crank vibration that occurs at high speeds and high loads is not only a friction loss, This can cause excessive damage to the crankshaft and bearings, shortening the life of the engine.

The main stud bolts of the world's leading brand ARP are genuine products.

The significantly greater tensile strength helps to suppress vibrating crank caps.

\*Special nuts, washers, and molybdenum paste included

Part Number	Product Name	Base price
<b>■ Nissan</b>		
202-5406	Nissan L20 L24 L26 L28 main stud kit	¥31,000
